TITLE

Autism Interdisciplinary Team (**AIT**) Training

PURPOSE

The AIT Training is to develop teams in districts/cooperatives that can provide consultation to teachers/teams of students with autism in their district/cooperative, conduct screenings for students suspected of having an Autism Spectrum Disorder (ASD), and to provide trainings in their district/cooperative on ASD. This training is for team building/collaboration/planning and not a strategies rich training.

WHO SHOULD APPLY?

Team members may include administrators, autism specialists, school psychologists, occupational therapists, speech language clinicians, special educators. It is expected that applicants will have basic knowledge in ASD. The application details the prerequisite knowledge and expectations of potential team members.

DATE

October 9-10, 2012 in Wichita KS (*new date)

REGISTRATION:

An application process is used to attend. Training is limited to 12 teams (new and replacement members for teams). There is a nominal registration fee. Lodging and travel costs are to be covered by the district/cooperative. Applications and information are sent to Directors, Assistant Directors and Team Contacts for existing teams in Early August. There are mandatory modules to be completed prior to attending the training for the selected participants. Follow up coaching will be provided to teams after the training. For more information, please email Jane Goetz at jgoetz2@kumc.edu.
