

Autism and Tertiary Behavior Supports  
www.ksdetasn.org

### **Before Requesting Assistance:**

Check to see if there are local resources to address the training need, if you are not sure what resources are in your area, call (913) 588-5943 and ask!

### **What is the process to request for training?**

All requests for technical assistance and training are handled through the TASN website. Go to [www.ksdetasn.org](http://www.ksdetasn.org) and click the big "Request Assistance" Button

Once the Autism and Tertiary Behavior Supports Project receives the request we will ask that you answer the following questions:

What is the goal for this training?

Does this training align with a district or building level development plan? If not, what prompted the request?

Who will be the audience for this training?

What is the desired date for training?

What is the physical address of the training location?

How many people do you expect to attend?

Will this training be open to professionals outside of your district, if so what other districts will be involved?

Who should we contact for clarification and/or for additional information?

**For complete information or to have questions answered, please contact Lee Stickle at 816-223-8181 or [lstickle@kumc.edu](mailto:lstickle@kumc.edu).**
